

NAISYA YUEN RA'AF

MOBILE & FRONT-END DEVELOPER

Bogor, Indonesia | naisyayr09@gmail.com | www.linkedin.com/in/naisyayuenr

OBJECTIVE

Technology is only powerful if people can actually use it. From mentoring students in programming to developing mobile applications, my goal at the Apple Developer Academy is to turn my technical foundation into approachable, user-centered iOS solutions while growing together with a diverse team.

EDUCATION

Undergraduate Degree (S1) - Informatics Engineering

2024 - Present

Tarumanagara University

- Academic Project "Klasifikasi Citra Daun Herbal Menggunakan CNN, MobileNetV2, dan Data Augmentation"

Plus PGRI Cibinong Senior High School

2021 - 2024

Science

- Outstanding Student Award

EXPERIENCE

Teaching Assistant (C++, Mobile Programming & Frontend Development)

Feb 2026 - Present

Tarumanagara University

- Assisted university lecturers in teaching and evaluating core informatics courses, including C++ fundamentals, Mobile Application Programming, and Frontend Web Development.
- Guided and mentored [57] undergraduate students per semester in practical laboratory sessions, debugging code, and explaining complex programming concepts.
- Evaluated student assignments and practical exams, providing constructive feedback to improve their technical proficiency and coding best practices.

Mobile Developer Intern

June 2026 - Aug 2026

PT. Indosoft Digital Enigma

- Developed a specialized mobile application module designed to streamline daily workflows for field technicians.
- Produced a comprehensive video tutorial to serve as an onboarding guide, significantly reducing user errors and accelerating the learning curve for technical staff.

Co-Facilitator & Lecturer Assistant

September 2025

Cybersecurity Workshop, SMAK Terang Bangsa Cirebon

- Selected by a university lecturer to co-facilitate an interactive workshop educating high school students on foundational cybersecurity principles and safe digital practices.
- Mentored students through practical digital safety exercises, demonstrating adaptability by translating advanced cybersecurity terminology into approachable, everyday language.

SKILLS

- Development:** Front-End Web, Mobile Application Programming, Database Integration (MySQL).
- Quality & Security:** QA Testing, Bug Debugging, Cybersecurity Fundamentals.
- Leadership:** Academic Mentoring (Teaching Assistant)

AWARDS & CERTIFICATIONS
